Celebrating Our Team Members

We are thrilled to welcome Tina Smith as the new HR Director at PTI Tech!

Tina brings over 25 years of experience supporting complex organizations by developing strong teams, and implementing systems with steady execution.

Her background spans healthcare, professional services, hospitality, and Fortune 500 environments, with deep expertise in operations, people management, and process improvement.

Case Study Spotlight

Tungsten Setback Pin

PTI Tech was contacted by Action Manufacturing Corp. to assist with a production issue they were experiencing with a vendor of tungsten components. PTI Tech utilized MIM technology and advanced multi-cavity mold tooling to manufacture the tungsten setback pin net-shape, hold tight tolerances, and provide high throughput.
